For Immediate Release

THE SS HAS LANDED: THE H200SS IS LIKELY TO GO DOWN IN HISTORY

Cadillac, Michigan... The 2009 H200SS is as memorable as a historic event, with superior engineering and amazing Four Winns signature style.

Four Winns Signature Series stands out with its bold gel coat pattern offered in new color combinations for 2009. New gel schemes include True Red and Jet Black, Classic Navy and White, White and Jet Black, and Sunset Orange and White. All are emblazoned with a sweeping SS graphic. A tinted, low-profile windscreen with a new stainless steel windshield header completes the distinctive silhouette. The windshield features a walk-thru with magnetic hold. And on the go, the Stable-Vee® hull provides optimum stability and smooth maneuverability.

The Signature Series “look” includes a sophisticated carbon fiber material at the helm. An upgraded, tri-spoke tilt steering wheel is standard, surrounded by a beautifully polished wood grain backdrop for the gauges. A Faria depth gauge is standard and displays air and water temperature for added convenience. Push button controls are crafted from stainless steel and have an LED status indicator light. The helm’s color scheme and styling is mirrored in the port console, which features a small cooler.

Four Winns recognizes the importance of on-board entertainment, which is why the helm of the H200SS model features both an iPod/MP3 player port – great for playing music from home or car over the boat’s sound system – and a 12 VDC receptacle – convenient for recharging handheld games or cell phones. Both of these items are housed in a non-skid, shock-resistant “cubby” located at the helm. Four Winns continues to make a 6-month subscription to SIRIUS satellite entertainment a standard feature on the H200SS; the streamer is part of the Sony AM/FM/CD player that is included in the base price. An optional remote control can be requested for use at the swim platform. For serious music lovers, there is a stereo package upgrade that includes a Kicker amplifier and a 10” subwoofer.

Many features that are normally considered upgrades are standard on SS models: a stainless steel prop, Quick & Quiet thru-side exhaust, and SunSport seating. The dual cockpit bucket seats are accommodating with suspension and flip-up bolsters for an extra smooth ride. The bucket seats also feature improved adjustment mechanisms that allow rotation and forward/aft movement. Seats feature Aquaflex™ vinyl in bold color arrangements that compliment exterior gel coat colors. The cockpit includes new carpet that is both attractive and durable over a fiberglass liner.

Plus, the H200SS is equipped with an integrated swim platform with Four Winns’ signature angled, hidden deep-reach ladder with wide-step pads as standard. There is a walk-over transom and power trim switch standard. Pull-up cleats, a rub rail, grab handles, and stainless steel cupholders add to the extra value standard features. A bow scuff plate, blue courtesy lights, and docking lights are also included.

A bimini top is standard on the H200SS, fabricated from top-quality, high performance Sunbrella® fabric and stainless steel hardware. A newly designed top frame mounting pin makes managing the top even easier.

Add to the H200SS' eye appeal and wake sport-readiness with the Ultimate Wakeboard Tower package, equipping it with board racks and a custom bimini top. The package also includes lights, extra stereo speakers, a ski mirror, and a swim platform mat.

Other options include a rubberized swim platform mat, compass, and bow fill-in cushions. Optional under swim platform lights illuminate the water for a superb evening atmosphere. An optional cockpit table can be removed and replaced on a whim, and an optional walk-thru door makes all areas of the boat super accessible. Plus, a flagpole and holder can be added for a great way to showcase patriotism or school spirit.

Storage is abundant on the H200SS. A 36-quart cooler stows conveniently inside the stern bench seat, and there are storage areas alongside the engine compartment, in the sidewalls, under bow seats, via the in-floor ski locker, in the helm and port console (accessed via the bow) and more. Below the bow seat, there is also dedicated anchor storage.

Performance selections for the H200SS range from 4.3 GXi/SX 225 hp to 5.7 Gi/SX 300 hp from Volvo Penta, and 4.3 MPI Alpha 220 hp to 350 MPI Bravo 1 DTS 300hp from MerCruiser. At service time, the engine compartment hatch is equipped with a gas-assisted lift.

A Four Winns-manufactured Sure-Load™ trailer is standard. The H200SS offers a single axle trailer as a standard feature, with a tandem axle upgrade available. With the SS series, canvas and trailer are provided in black or navy, and aluminum wheels are standard. The trailer's low-profile bunk design keeps the boat's center of gravity low, for greater stability while towing. Because it has been custom-designed to fit the running surface, launching and loading is quick and easy. Ideal for saltwater use and long-hauls, the galvanized trailer with GatorHyde™ is available for even greater durability; and a Turbo Lube® system with oil bath bearings facilitates quick and easy visual oil inspections.

SIRIUS Satellite Entertainment

In addition to a Sony stereo AM/FM/CD player, and an iPod/MP3 port with 12-volt charger, Four Winns has outfitted each 2009 model with a SIRIUS satellite entertainment system. Included is a free 6-month subscription to SIRIUS' 100 + commercial free channels. For more information on the SIRIUS satellite system go to www.siriusradio.com where subscribers can also listen on-line.

Winning Edge Owner Protection Plan

All Four Winns boats for 2009 provide boaters with one of the most comprehensive warranties in boating.

- Lifetime limited warranty on structural components of the hull and deck
- Five years of pro-rated protection against osmotic hull blistering
- Two years limited warranty coverage on non-structural parts and components
- One-year limited warranty against cracking, crazing or fading of the exterior gel coat finish

Four Winns - A Genmar Boat Company

Four Winns is a division of the Genmar family of boat brands. Genmar, with approximately 4,000 employees and five manufacturing centers, is the builder of 14 premier brands of recreational boats which include Carver®, Champion®, Four Winns®, Glastron®, Hydra-Sports®, Larson®, Marquis®, Ranger®, Scarab®, Seaswirl®, Stratos®, Triumph®, Wellcraft®, and Windsor Craft®. Genmar boats are sold worldwide through its approximately 1,100 dealers. Additionally, Genmar utilizes its proprietary VEC® Technology and the Roplene® process in both the manufacture of certain of its recreational boats and for third-party manufacturing.

Specifications:
