For Immediate Release

A SIZZLING SUMMER IS A SURE THING WITH THE H210SS

Cadillac, Michigan... With thoroughbred appearance and performance, the H210SS is a unique twist to the Four Winns sport boat line up. Some 2009 fresh upgrades combined with a classic sport boat style, and the H210SS adds up to a very good boating season.

Four Winns Signature Series stands out with its bold gel coat pattern offered in new color combinations for 2009. New gel schemes include True Red and Jet Black, Classic Navy and White, White and Jet Black, and Sunset Orange and White. All are emblazoned with a sweeping SS graphic. A tinted, low-profile windscreen with a new stainless steel windshield header completes the distinctive silhouette. The windshield features a walk-thru with magnetic hold. And on the go, the Stable-Vee® hull provides optimum stability and smooth maneuverability.

Add to the H210SS' eye appeal and wake sport-readiness with the Ultimate Wakeboard Tower or Arch package, equipping it with either a stainless steel arch with ski tow or a wakeboard tower – both include board racks and a custom bimini top. The package also includes lights, extra stereo speakers, a ski mirror (with tower only), and a swim platform mat.

The Signature Series “look” includes a sophisticated carbon fiber material at the helm. A deluxe tri-spoke tilt steel steering wheel and compass is standard, surrounded by a beautifully polished wood grain backdrop for the gauges, such as the tachometer with hour meter. A Faria depth gauge is standard and displays air and water temperature for added convenience. Push button controls are crafted from stainless steel and have an LED status indicator light. The helm's color scheme and styling is mirrored in the port console, which features a small cooler.

Four Winns recognizes the importance of on-board entertainment, which is why the helm of the H210SS model features both an iPod/MP3 player port – great for playing music from home or car over the boat's sound system – and a 12 VDC receptacle – convenient for recharging handheld games or cell phones. Both of these items are housed in a non-skid, shock-resistant “cubby” located at the helm. Four Winns continues to make a 6-month subscription to SIRIUS satellite entertainment a standard feature on the H210SS; the streamer is part of the Sony AM/FM/CD player that is included in the base price. An optional remote control can be requested for use at the swim platform. For serious music lovers, there is a stereo package upgrade that includes a Kicker amplifier and a 10” subwoofer.

Many features that are normally considered upgrades are standard on SS models: a stainless steel prop; Quick & Quiet thru-side exhaust; and SunSport seating. The new cockpit bucket seats feature improved adjustment mechanisms that allow rotation and forward/aft movement, and are more accommodating with suspension and flip-up bolsters. Seats feature Aquaflex™ vinyl, in bold color arrangements that compliment exterior gel coat colors. The cockpit includes new carpet that is both attractive and durable over a fiberglass liner.

Plus, the H210SS is equipped with an integrated swim platform just beyond the walk-over transom. A power trim switch at the transom, stainless steel pull-up cleats, rub rail, grab handles and stainless steel cupholders are all standard. At the bow, an anchor can be stored in the dedicated locker with overboard draining and hidden ladder. A bow scuff plate, blue courtesy lighting, and docking lights are also standard features included in the base price. The H210SS is available with a cockpit table that can be removed and replaced on a whim, and an optional walk-thru door makes all areas of the boat super accessible.

Available options include a rubberized swim platform mat, compass, and bow fill-in cushions. Optional under swim platform lights illuminate the water for a superb evening atmosphere. A bimini top fabricated from top-quality, high performance Sunbrella® fabric with stainless steel hardware is standard. A newly designed top frame mounting pin makes managing the bimini top even easier. A hinging stainless steel arch is an option, ideal for traveling in low clearance areas and great for simple maintenance.

Storage is abundant on the SS models. A 36-quart cooler stows conveniently inside the stern bench seat, and there are storage areas alongside the engine compartment, in the sidewalls, under bow seats, via the in-floor ski locker, in the helm and port console (accessed via the bow) and more.

The H210SS is offered with six engine selections: Volvo Penta stern drive power ranges from 5.0 GXi/SX 270 hp to 5.7GXi/SX 320 hp; MerCruiser stern drive power is available from 5.0 MPI Alpha 260 hp to the 377 MPI/Bravo I DTS 320 hp. At service time, the engine compartment hatch is equipped with a gas-assisted lift.

A Four Winns-manufactured Sure-Load™ tandem axle trailer is standard. With the SS series, canvas and trailer are provided in black or navy, and aluminum wheels are standard. The trailer's low-profile bunk design keeps the boat's center of gravity low, for greater stability while towing. Because it has been custom-designed to fit the running surface, launching and loading is quick and easy. Tops in safety, this Four Winns trailer is equipped with disc brakes, enhanced LED lights and built-in ratchet straps. A heavy duty jack stand is included. Ideal for saltwater use and long-hauls, the galvanized trailer with GatorHyde™ is available for even greater durability; and a Turbo Lube® system with oil bath bearings facilitates quick and easy visual oil inspections.

SIRIUS Satellite Entertainment

In addition to a Sony stereo AM/FM/CD player, and an iPod/MP3 port with 12-volt charger, Four Winns has outfitted each 2009 model with a SIRIUS satellite entertainment system. Included is a free 6-month subscription to SIRIUS' 100 + commercial free channels. For more information on the SIRIUS satellite system go to www.siriusradio.com; where subscribers can also listen on-line.

Winning Edge Owner Protection Plan

All Four Winns boats for 2009 provide boaters with one of the most comprehensive warranties in boating.

- Lifetime limited warranty on structural components of the hull and deck
- Five years of pro-rated protection against osmotic hull blistering
- Two years limited warranty coverage on non-structural parts and components
- One-year limited warranty against cracking, crazing or fading of the exterior gel coat finish

Four Winns - A Genmar Boat Company

Four Winns is a division of the Genmar family of boat brands. Genmar, with approximately 4,000 employees and five manufacturing centers, is the builder of 14 premier brands of recreational boats which include Carver®, Champion®, Four Winns®, Glastron®, Hydra-Sports®, Larson®, Marquis®, Ranger®, Scarab®, Seaswirl®, Stratos®, Triumph®, Wellcraft®, and Windsor Craft®. Genmar boats are sold worldwide through its approximately 1,100 dealers. Additionally, Genmar utilizes its proprietary VEC® Technology and the Roplene® process in both the manufacture of certain of its recreational boats and for third-party manufacturing.

Specifications:
