For Immediate Release

THE H220SS PACKS SIGNATURE FOUR WINNS FEATURES AND STYLE

Cadillac, Michigan... The H220SS is Four Winns way of bringing the hottest style and features together on one fantastic sport boat. Its sizable 22' profile make it a boater's prized possession.

The hallmark of the H220SS is its bold gel coat pattern offered in new color combinations for 2009. New gel schemes include True Red and Jet Black, Classic Navy and White, White and Jet Black, and Sunset Orange and White. All are emblazoned with a sweeping SS graphic. A tinted, low-profile windscreen with a new stainless steel windshield header completes the distinctive silhouette. The windshield features a walk-thru with magnetic hold. And on the go, the Stable-Vee® hull provides optimum stability and smooth maneuverability.

The Signature Series "look" includes a sophisticated carbon fiber material at the helm. A deluxe tri-spoke tilt steel steering wheel and compass is standard, surrounded by a beautifully polished wood grain backdrop for the gauges, such as the tachometer with hour meter. A Faria depth gauge is standard and displays air and water temperature for added convenience. Push button controls are crafted from stainless steel and have an LED status indicator light. The helm's color scheme and styling is mirrored in the port console, which features a small cooler.

Four Winns recognizes the importance of on-board entertainment, which is why the helm of the H220SS model features both an iPod/MP3 player port – great for playing music from home or car over the boat's sound system – and a 12 VDC receptacle – convenient for recharging handheld games or cell phones. Both of these items are housed in a non-skid, shock-resistant "cubby" located at the helm. Four Winns continues to make a 6-month subscription to SIRIUS satellite entertainment a standard feature on the H220SS; the streamer is part of the Sony AM/FM/CD player that is included in the base price. An optional remote control can be requested for use at the swim platform. For serious music lovers, there is a stereo package upgrade that includes a Kicker amplifier and a 10" subwoofer.

Many features that are normally considered upgrades are standard on SS models: a stainless steel prop, Quick & Quiet thru-side exhaust, and docking lights. The cockpit bucket seats feature improved adjustment mechanisms that allow rotation and forward/aft movement, suspension, and flip-up bolsters. Unique stern seating converts to two separate lounges; plus a walk-over transom provides easy access to the integrated swim platform. Seats feature Aquaflex™ vinyl, in bold color arrangements that compliment exterior gel coat colors. The cockpit includes new carpet that is both attractive and durable over a fiberglass liner.

Plus, the H220SS is equipped with an extended swim platform, stainless steel pull-up cleats, a rub rail, grab handles and cupholders of timeless stainless steel. A bow scuff plate and transom trim switch are also standard features included in the base price. At the bow, an anchor can be stored

in the dedicated locker with overboard draining and hidden ladder. New for 2009 blue courtesy lighting is standard, and under-swim platform lights are optional.

The H220SS is available with a cockpit table that can be removed and replaced on a whim, and an optional walk-thru door makes all areas of the boat super accessible.

Add the Ultimate Wakeboard Tower or Arch package as the next step in customizing for wake sporters, equipping it with either a stainless steel arch with ski tow or a wakeboard tower – both include board racks and a custom bimini top. The package also includes lights, extra stereo speakers, a ski mirror (with tower only), and a swim platform mat.

Some available options include bow fill-in cushions, and transom-mounted speakers. A bimini top fabricated from top-quality, high performance Sunbrella® fabric with stainless steel hardware is standard. A newly designed top frame mounting pin makes managing the bimini top even easier. A hinging stainless steel arch is an option, ideal for traveling in low clearance areas and great for simple maintenance. In addition, a hard top is available.

Storage is abundant on the SS models. A 36-quart cooler stows conveniently under the u-shaped seating, and there are compartments in the sidewalls, under bow seats, via the in-floor ski locker, in the helm and port console (accessed via the bow) and more.

The H220SS is offered with many engine selections: Volvo Penta stern drive power ranges from 5.0 GXi/SX 270 HP to 5.7 GXi/DP 320 HP; MerCruiser stern drive power is available from 5.0 MPI Bravo I 260 HP to the MX 6.2 Bravo III DTS 320 HP. At service time, the engine compartment hatch is equipped with a gas-assisted lift.

A Four Winns-manufactured Sure-Load™ tandem axle trailer is standard with aluminum wheels. With the SS series, canvas and trailer are provided in black or navy. The trailer's low-profile bunk design keeps the boat's center of gravity low, for greater stability while towing. Because it has been custom-designed to fit the running surface, launching and loading is quick and easy. Tops in safety, this Four Winns trailer is now equipped with enhanced LED lights and built-in ratchet straps. A heavy duty jack stand is included. Ideal for saltwater use and long-hauls, the galvanized trailer with GatorHyde™ is available for even greater durability; and a Turbo Lube® system with oil bath bearings facilitates quick and easy visual oil inspections.

SIRIUS Satellite Entertainment

In addition to a Sony stereo AM/FM/CD player, and an iPod/MP3 port with 12-volt charger, Four Winns has outfitted each 2009 model with a SIRIUS satellite entertainment system. Included is a free 6-month subscription to SIRIUS' 100 + commercial free channels. For more information on the SIRIUS satellite system go to www.siriusradio.com; where subscribers can also listen on-line.

Winning Edge Owner Protection Plan

All Four Winns boats for 2009 provide boaters with one of the most comprehensive warranties in boating.

- Lifetime limited warranty on structural components of the hull and deck
- Five years of pro-rated protection against osmotic hull blistering
- Two years limited warranty coverage on non-structural parts and components
- One-year limited warranty against cracking, crazing or fading of the exterior gel coat finish

Four Winns - A Genmar Boat Company

Four Winns is a division of the Genmar family of boat brands. Genmar, with approximately 4,000 employees and five manufacturing centers, is the builder of 14 premier brands of recreational boats which include Carver®, Champion®, Four Winns®, Glastron®, Hydra-Sports®, Larson®, Marquis®, Ranger®, Scarab®, Seaswirl®, Stratos®, Triumph®, Wellcraft®, and Windsor Craft®. Genmar boats are sold worldwide through its approximately 1,100 dealers. Additionally, Genmar utilizes its proprietary VEC® Technology and the Roplene® process in both the manufacture of certain of its recreational boats and for third-party manufacturing.
