**For Immediate Release**

**THE H310 COMBINES FUN WITH POWERFUL**

*Cadillac, Michigan...* Its imposing size and powerful performance combines with good clean fun, resulting in an outstanding and unique sport boat. Packed with value-added features, the H310 is the perfect formula for excitement on the water.

With a length overall of 31'4" (9.55M) and a 9'8" (2.84M) beam, the H310 can accommodate large groups (up to 14 people) and open water. Standard amenities are plentiful, including Four Winns' patented Stable-Vee™ hull.

The stunningly large open bow is a haven for sun seekers and fresh air devotees. Optional fill-in cushions convert the area to a spacious lounge. The optional bow table has a canted pedestal/mount system providing plenty of legroom. Four Winns has thoughtfully provided storage beneath hinged bow seats, and in-floor storage large enough for skis. The walk-through windshield with stainless steel header and tempered curved glass allows easy access between the bow and cockpit, while walk-thru doors enable boaters to curb wind flow through the cockpit. New for 2009, a power windlass with rope, chain and anchor is standard, and docking lights are optional.

The focal point of the cockpit is a high-tech helm, with a new carbon fiber-look material as the backdrop for the new mahogany steering wheel with tilt. New for 2009, electronic shift is now standard with Volvo Penta EVC or Mercruiser DTS. The helm's technical gear, including a compass, and tachometer with hour meter, are accented by chrome-look gauge rings. The depth gauge now displays air and water temperature for added convenience. An array of easy-touch stainless steel switches are at the ready, designed to provide rugged dependability with a stylish look. Customers who order the Navigation Package option will enjoy the convenience of a removable GPS unit, plus a VHF radio. The generous helm seat has a flip-up bolster and is standard with power adjustment capabilities. On the port side, the console area is outfitted matching carbon fiber material with a lockable storage area.

Cockpit seating is comfortable, versatile and well-planned. The port side of the vessel features a large lounge/settee. Twin forward facing stern seats are part of Four Winns "Cross Stream" seating system that converts the large sunpads into twin sun lounges with adjustable backrests. The center walk-thru may be filled in with standard cushion and backrest. Additional fill-in cushions convert the stern seating into a full U-shaped configuration. Best of all, the Four Winns design team has created dedicated storage spaces for each fill-in cushion. The U-shaped lounge side fill-ins, for example, stow under the forward segment of the lounge. When deployed, the cushion storage area can be used for general storage. Likewise, the walk-thru fill-in cushion has a dedicated storage area beneath the aft sun pad. This area also serves as a snap-in storage area for

the optional air compressor unit, which features a variety of valve adaptors for inflatable water toys. On the opposite side you'll find a secure storage fitting for the optional removable ski pylon.

Of course, seats feature Aquaflex™ vinyl, in tasteful color arrangements that compliment exterior gel coat colors. The cockpit includes new carpet that is both attractive and durable over a fiberglass liner. An optional Florentine Package includes vinyl in a new, deep color reminiscent of beach sand, and high-quality carpet with a teak-like slatted pattern woven in.

Between the cockpit and the bow seating areas lies the H310's most welcoming feature: a roomy day berth outfitted with tasteful fabric upholstery. This spacious and well-lit area features a sleeping area, windows that open to the port side and toward the cockpit, lighting and optional air conditioning/heating. There is a space for the available microwave, and flat screen television. A Sony AM/FM/CD player with six-disc changer, and satellite radio with a 6-month subscription to SIRIUS is standard.

The head compartment is remarkably roomy with a sink, large counter surface, porcelain toilet with standard VacuFlush, and storage locker. It also features a vanity, mirror, medicine cabinet, and opening port lite window.

Every boater is an individual, and Four Winns provides enough exterior gel schemes to satisfy just about any individual. Choose the standard two-tone narrow band premium gel coat finish featuring wave graphics accented with silver highlights. Four Winns gel coat is available in six colors, including the new Pastel Blue and Pastel Yellow. The H310 is also available in all-white with wave graphics. A classic color band option is another option, featuring a wide swath of gel coat along with a matching or contrasting hull accent tape that is positioned just above the water line. To further personalize the H310, Four Winns offers the tri-tone gel scheme with or without a wave graphic, which includes a deck stripe, a hull accent tape, and a broad coating of rich gel color in between. The tri-tone is available with a variety of color combinations.

A hinging stainless steel arch is an option, ideal for traveling in low clearance areas and great for simple maintenance.

The H310 is equipped with a number of subtle features that add up to great value and functionality. Pull-up cleats are standard, a stainless steel rub rail, grab handles and cupholders. A bow scuff plate is also included. Blue courtesy lighting is now standard for 2009.

The genuine teak flooring option adds a rich nautical look to the H310's integrated swim platform area. Flexiteek flooring is an additional option for the swim platform, providing a safe and comfortable surface. Four Winns includes its signature angled, hidden deep-reach ladder with wide step pads for the swimmer's comfort. Plus, a flagpole and holder option is now available, mounted at the stern with sturdy stainless steel hardware to assist in showcasing national pride. On top of it all, the H310 is available with under water lights that illuminate the water for a superb evening entertainment atmosphere. A trailer is available by special order.

Entertaining aboard the H310 is a pleasure thanks to the central serving space provided by the cockpit refreshment center. It is equipped with a sink and counter area, a 12V power outlet, and a compartment that conceals two trash containers. To keep beverages and snacks cool, there is also generous storage for a carry-on cooler or an optional refrigerator. The 20-gallon potable water capacity provides yet another convenience on board.

Customers can choose from many engine choices: Volvo Penta choices range from 8.1 Gi/DP

EVC 375 hp to Twin 5.7 GXi/DP EVC 320 hp; or MerCruiser power from 496 MG/Bravo III DTS 375 hp to Twin 377 MPI/Bravo III DTS 320 hp.

### **SIRIUS Satellite Entertainment**

In addition to a Sony AM/FM stereo with six disc changer, and an iPod/MP3 port with 12-volt charger, Four Winns has outfitted each 2009 model with a SIRIUS satellite entertainment system. Included is a free 6-month subscription to SIRIUS' 100 + commercial free channels. For more information on the SIRIUS satellite system go to [www.siriusradio.com](http://www.siriusradio.com); where subscribers can also listen on-line.

### **Winning Edge Owner Protection Plan**

All Four Winns boats for 2009 provide boaters with one of the most comprehensive warranties in boating.

- Lifetime limited warranty on structural components of the hull and deck
- Five years of pro-rated protection against osmotic hull blistering
- Two years limited warranty coverage on non-structural parts and components
- One-year limited warranty against cracking, crazing or fading of the exterior gel coat finish

### **Four Winns - A Genmar Boat Company**

Four Winns is a division of the Genmar family of boat brands. Genmar, with approximately 4,000 employees and five manufacturing centers, is the builder of 14 premier brands of recreational boats which include Carver®, Champion®, Four Winns®, Glastron®, Hydra-Sports®, Larson®, Marquis®, Ranger®, Scarab®, Seaswirl®, Stratos®, Triumph®, Wellcraft®, and Windsor Craft®. Genmar boats are sold worldwide through its approximately 1,100 dealers. Additionally, Genmar utilizes its proprietary VEC® Technology and the Roplene® process in both the manufacture of certain of its recreational boats and for third-party manufacturing.
